basically pauldrons if you're on the dais and missile prop over timeless on smaller maps (night market). monumental just fucks with your wall and has caused 99% of my dubu own goals. leave quick strikes up for your midfielder if you two are right next to each other if not just take because it's incredibly bis. egoist lets u play offense as a defensive goalie. SPEED IS GIGA HUGE MASSIVE UNREAL BIS AND IS THE BEST THING YOU CAN GET ON DUBU
